

07070

Please read the following instructions and warnings carefully.
Keep this instruction manual for future reference.

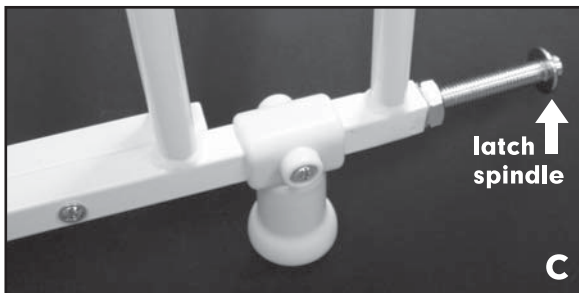

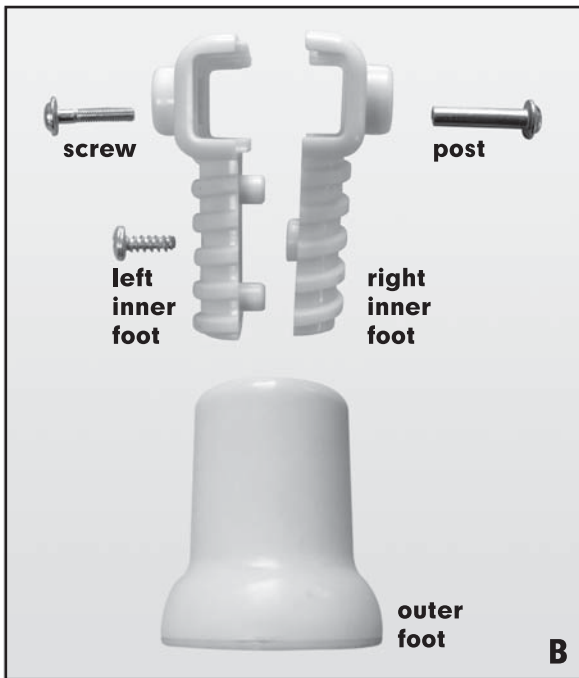

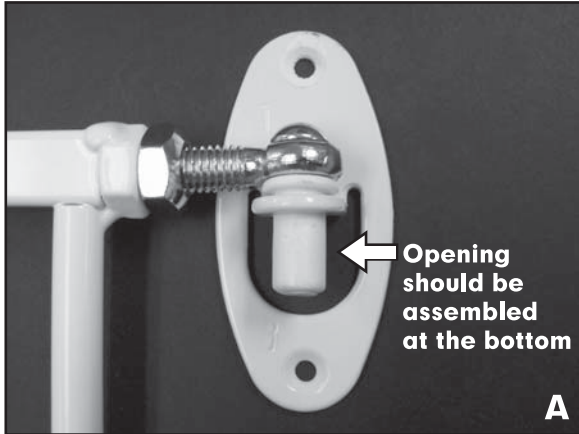

Tools required: Two Phillips head screwdrivers (not included)

**For Technical Support Call 1-800-268-6237 or
E-Mail at customerservice@summerinfant.com**

For use with children from birth and up.

! WARNING:

Adult assembly required. Keep small parts away from children when assembling.

SURE AND SECURE™ METAL EXPANSION GATE METAL HINGE AND EXTENSION FOOT

Thank you for buying the Sure and Secure™ Metal Expansion Gate from Summer Infant. This slip sheet provides instructions on how to install the metal hinge and extension foot that will prevent the end of the gate from bottoming out if anyone stands or leans on it.

Please read this slip sheet before installing the metal hinge and extension foot.

METAL UPPER HINGE

You will notice that the “plastic” upper hinge image in the instruction sheets is slightly different than the “metal” upper hinge you received. Please note that the new metal upper hinge assembles the same as the plastic upper hinge.

CAUTION: Please note the correct assembly orientation of the metal upper hinge in figure A. Make sure the opening in the hinge (see figure A) is at the bottom when assembling the hinge.

EXTENSION FOOT

NOTE: The extension foot assembly should be installed before the panel with the latch spindles is installed. If the gate has already been assembled, it is necessary to uninstall the gate panel with the spindles to install the extension foot.

Step 1: Using the screws provided, attach the two inner foot pieces around the bottom of the gate panel that contains a latch spindle. The post and screw should pass through the hole in the gate. (See figure B for components.)

Step 2: Screw the outer foot piece onto the inner foot piece. (See figure C for fully assembled view.)

CAUTION: This product is not a toy.
Adult supervision is required.
Store away from child's reach.
